

Data and Analytics

Derive insights that power your business strategy

- Is your business facing challenges that prevent you from accessing up-to-date, real-time data?
- Are you struggling to sift through mountains of data to filter what's meaningful and what's not?
- Are you spending time identifying business trends and obtaining insights?
- Do you have multiple versions of the truth - making it impossible to effectively and accurately monitor your business KPIs?

We develop your organization's data strategy, build data platforms and drive you towards the future with predictive analytics. If your business is working with multiple disparate systems - you need a partner that will make your data meaningful.

Service Offerings

Analytics Strategy

- Assess current capabilities to achieve business goals
- Construct high-value use cases to deliver the promised functionality
- Develop road maps to modernize data
- Implement new AI capabilities that align with your business goals

Analytics Platform

- Enable broad integration while preserving the integrity of data to achieve well-defined goals
- Deploy effective analytics solutions to create data driven decisions with effective analytics

Predictive Analytics

- Generate intelligent decisions with effective analytics
- Drive smart analytics by incorporating artificial intelligence to access insights and smart recommendations

Automation

- Evaluate current processes and resolve challenges with the support of end-to-end consulting with Microsoft Power Automate
- Automate business processes by developing effective workflows

Our Customers

“

Intellint's business intelligence platform has elevated our business through 360° visualization of operations and has helped to make swift data backed decisions. Not only are we saving time and resources; but our staff feel empowered to make various strategic decisions with data at their fingertips in real-time.

Toyota

Onboarding Azure data services and Power BI was an important milestone in enhancing our cloud technologies, making us the first subsidiary in AIA Group to roll it out. Fortude has been a valuable partner, bringing industry best practices and technology expertise throughout the entire project.
